	<b>Awareness session on IET Accreditation</b>	

## Report

### Awareness Session on IET Accreditation

**Participants/Audiences** : DYPIU Leadership & Faculty

**Venue** : SEMR Board Room, Akurdi Pune

**Date** : 09/10/2025

**Time** : 11 am to 2 pm

**Organized by** : IQAC & SoEMR, DYPIU

**Report Prepared by** : Dr Sandhya Shinde

**Report Approved by** : Dr Anupama Patil

Dr Sunil Dambhare

	<b>Awareness session on IET Accreditation</b>	

## **1. Objectives of the Event**

The Second IET Student Chapter meeting at DYPIU was organized with the primary objective of providing faculty members and university authorities with in-depth knowledge about the IET Accreditation process for engineering programs. The session aimed to familiarize the participants with the international quality assurance standards set by The Institution of Engineering and Technology (IET) and explore the potential for accreditation of DYPIU's engineering programs.

The specific objectives included:

- To understand the step-by-step process, criteria, and documentation required for IET accreditation.
- To learn about the benefits and global recognition associated with IET-accredited programs.
- To encourage faculty members to align their curriculum design, teaching methods, and evaluation practices with international benchmarks.
- To create awareness about how IET accreditation supports continuous improvement and global competitiveness in engineering education.
- To establish a strong academic linkage between DYPIU and IET India for future collaborations in accreditation, membership, and research initiatives.

## **2. Content & schedule & program details**

The meeting commenced with a warm welcome address by Dr. Manish Bhalla, Hon'ble Vice-Chancellor, DYPIU, who extended greetings to the visiting delegates from IET India — Mr. Amitabh Sinha, Head of Growth (Membership and Accreditation), and Ms. Saudamini Dutta, Assistant Manager (Business Development). Dr. Bhalla felicitated the guests with mementos and expressed gratitude for their collaboration and guidance in DYPIU's pursuit of excellence.

Dr. Priya Charles, Professor and Head, Department of Semiconductor Engineering, welcomed all Directors, Deans, and Heads of Departments present for the meeting. She emphasized the relevance of IET accreditation in enhancing the university's academic standards and global recognition.

Following the introduction, Mr. Amitabh Sinha delivered a comprehensive presentation on the IET Accreditation Framework, covering key topics such as:

### **Purpose and Benefits of Accreditation:**

Accreditation signifies that a program meets the highest standards of quality, relevance, and effectiveness

<b>Academic Year:</b> 2025-26 SEM I	<b>Internal Quality Assurance Cell &amp; School of Engineering Management and Research</b>	<b>Date of Preparation :</b> 09/10/2025

in engineering education. It provides international recognition and demonstrates the university's commitment to producing globally competent graduates.

**Evaluation Parameters:**

The accreditation process evaluates multiple dimensions including program objectives, learning outcomes, course content, student projects, assessment practices, faculty qualifications, and infrastructure adequacy.

**Continuous Quality Improvement (CQI):**

IET accreditation encourages institutions to maintain and enhance quality through periodic reviews, outcome-based learning, and adherence to evolving global standards.

**Support and Guidance from IET:**

IET offers continuous mentorship, advisory visits, and access to accreditation manuals, ensuring institutions receive the necessary support throughout the process.

During the interactive Q&A session, several faculty members and directors raised pertinent questions regarding eligibility, evaluation format, distinction between IET and NBA accreditation, and documentation procedures.

Mr. Sinha provided detailed clarifications — emphasizing that IET follows a binary evaluation approach (meets/does not meet criteria), and accreditation eligibility begins once at least one student batch has graduated.

He also highlighted that while NBA focuses on national-level standards, IET accreditation offers international benchmarking, which significantly enhances global recognition and employability of graduates.

Dr. Ganesh Jadhav, Dr. Shashi Singh, Dr. Sunil Dambhare, and other faculty members actively participated, making the session highly interactive and intellectually enriching.

The meeting concluded with a vote of thanks by Dr. Priya Charles, who appreciated the valuable insights shared by the IET officials and thanked the university leadership for their continued encouragement in fostering academic excellence.

### **3. Outcome**

- Faculty members gained comprehensive awareness of the IET accreditation framework and its global relevance.
- The university identified key preparatory steps for pursuing IET accreditation in the future.

 <p><b>D Y PATIL</b> INTERNATIONAL UNIVERSITY AKURDI PUNE</p>	<p><b>D Y Patil International University, Akurdi, Pune</b></p>

- The session facilitated collaboration and communication between DYPIU and IET India for academic quality enhancement.
- Faculty members received clarity on the difference between national (NBA) and international (IET) accreditation processes.
- The meeting strengthened DYPIU's commitment to achieving global academic standards and continuous institutional improvement.

#### **4. Target Audience and Number of Participants attended.**

Target Audience: Dean, Directors, HODs, IQAC Director, Faculty Members

Number of Participants: 15

**Academic Year:  
2025-26  
SEM I**

**Internal Quality Assurance Cell & School of  
Engineering Management and Research  
Awareness session on IET Accreditation**

**Date of  
Preparation :  
09/10/2025**

**Attendance:**

<b>SN.</b>	<b>Name</b>	<b>Designation</b>
1	Dr Manish Bhalla	Vice Chancellor, DYPIU
2	Dr. Beeran Moidin B. M.	Registrar, DYPIU
3	Dr Madhavi Deshpande	Dean Academics, DYPIU
4	Dr Shashi Singh	Director, School of Biosciences and Bioengineering, and Dean – Research, School of Interdisciplinary Science
5	Dr Anupama Patil	Director, School of Engineering, Management and Research
6	Dr Rahul Sharma	Director, School of Computer Science and Engineering & Applications
7	Dr Arvind Mathur	Director, School of Engineering
8	Dr Sunil Dambhare	Director, IQAC,DYPIU
9	Dr Priya Charles	Head, Semiconductor Engineering, SEMR
10	Dr Shailesh Ghodke	Head, Chemical Engineering, SEMR
10	Dr Ganesh Jadhav	Head, Mechanical Engineering, SEMR
11	Dr Pravin Gorde	Head, Civil Engineering, SEMR
12	Dr Surbhi Sonam	Head of the Department, Department of Bioengineering, School of Biosciences and Bioengineering
13	Dr Swpnil Bhurat	Head, SOE
14	Dr Sandhya Shinde	Faculty Coordinator, IET
15	Dr Aniket Kolekar	Associate Professor, Mechanical Engineering
